12th (PCM+Computers)	K.V. No.2, Delhi Cantt-10 2005 - 2006	85.40 %

WORK EXPERIENCE

UX Designer II, Zeta	[June 2019 - Present]	Fintech - Enterprise UX & Mobile UX
-----------------------------	-----------------------	-------------------------------------

Worked closely with PMs/Devs/Design Manager on PRD discussions, competitor research, brainstorming on user journey flows and designing low-fidelity to high-fidelity UI screens for various stakeholder discussions. Helped in shipping **Cipher** (3DS 2.0 ACS), **Risk Center** and **Developer Center** products as part of the enterprise banking as a service platform.

UX Designer, NiYO	[January - June 2019]	Fintech - Enterprise UX & Mobile UX
--------------------------	-----------------------	-------------------------------------

Shipped the redesigned **Bharat Niyo**, an android based vernacular banking app and designed **SME Portal**, HRM solution for the corporates. Lead design efforts for the blue collared user segment with help of researchers/PMs/Devs/Co-founders/Data analysts/CustomerCare to conduct on field research, in house interviews, ux flows and high fidelity UI designs.

UX Intern, Samsung	[June - Dec 2018]	Rewards - Mobile UX
---------------------------	-------------------	---------------------

NID's thesis project on unifying rewards offered across Samsung's native apps and services in India into a single Rewards Platform. Conducted user research, competitor analysis for next gen features for mass segment smartphones.

UX Designer (P1B), Ciena	[September 2014 - July 2016]	NMS - Enterprise UX Designer & Developer
---------------------------------	------------------------------	--

Module ownership of Commissioning & Protection module for BluePlanet and Sitemanager enterprise portal. Responsible for designing wireframes, UX mockup screens, stakeholder discussions, creating POCs and development of various features.

S/W Engineer, Aricent	[June 2012 - August 2014]	NMS - Backend Developer
------------------------------	---------------------------	-------------------------

Worked as core java developer for clients like **Alcatel-Lucent's** Omnivista 2500NMS and **ABB's** TotalFlow NMS solutions. Created UI testing automation tool using Selenium, that reduced 4 man/day effort to 6 hrs with 97+% efficiency.
